

SPANISH AS A FOREIGN LANGUAGE

More than 400 million people around the world speak Spanish making it one of the most spoken languages on Earth. At IAA we aim for our students to become global citizens and lifelong learners; our SFL program prepares them to learn, listen, speak clearly and effectively, and express themselves by writing and reading different types of informational and literary texts in Spanish. Also, students will learn about, understand, and appreciate the various cultures of different Spanish speaking countries.

Curriculum Overview and Goals

Our SFL students will learn Spanish following a based ACTFL (American Council for Teaching Foreign Language) standards program.
